Sandata—Electronic Visit Verification

As of January 1, 2021 and in response to a federal mandate known as the 21st Century Cures Act, the AHCCCS program will begin using an Electronic Visit Verification (EVV) system for selected home and community-based services. The legislation outlines key data points that must be collected and electronically verified, but states create their own systems and decide how to gather and report data, as well as whether to include additional compliance rules.

AHCCCS is using EVV to help ensure, track and monitor timely service delivery and access to care for members. AHCCCS is also using EVV to help reduce provider administrative burden associated with scheduling and hard coy timesheet processing. This means AHCCCS wants to use EVV to make sure members get the service that they need when they need them. AHCCCS' contracted vendor, Sandata Technologies LLC, will deliver the EVV system and associated devices, as well as provide system orientation and training to providers.

Many agency providers will use the EVV system provided by Sandata. However, some agency providers may choose to use an alternate EVV system, which is permissible if they meet the business requirements as an alternate data collection specifications found on the AHCCCS webpage.

Next page includes a list of the Provider types, services and places of service subject to EVV.

ORGANIZATIONAL/FACILITY APPLICATION

Electronic Visit Verification (EVV) Compliance Attestation

As the Chief Executive of a provider agency that provides services to AHCCCS members subject to Electronic Visit Verification (EVV), I attest to the following:

- 1. My agency will utilize an EVV system for all EVV applicable services as outlined on the AHCCCS website. I understand that my agency can choose to use the AHCCCS supplied state-wide system with Sandata Technologies or an alternate EVV system that my agency procures.
- 2. I understand my agency cannot onboard with EVV until we have an AHCCCS Provider ID number. We will not be able to bill for services until after we have completed credentialing and have our EVV system in place (i.e. access to the system, people trained, devices deployed, etc.) and record visits.
- 3. For EVV services that don't require prior authorization, my agency will input/upload required information including updates and changes into the AHCCCS Service Confirmation Portal to inform AHCCCS and Managed Care Organizations (MCOs) of the following information to support monitoring access to care through the EVV system
 - Service codes, units and modifiers
 - Beginning and end date of the services
 - Medical necessity determination date
- 4. I understand and will adhere to the AHCCCS Medical Policy Manual (AMPM) Electronic Visit Verification policy (540).

Please verify the name and contact information (page 4 of application) for the administrative representative within your organization who will be responsible for serving as the primary contact for EVV. This person will receive primary communications and notices from Sandata and AHCCCS.
