Who, What, Where, When and How?

The **AHWGMA** is a statewide data collection tool used to help the Arizona Network by gathering information, analyzing data, and assessing the current and future needs of the workforce. The results of this process gives insight for future workforce development resources, highlights where support is needed, and assists with the prioritization of initiatives/projects across the network.

◀◀ Rationale

Data Collection and Analysis for:

- Demographics of the workforce
- Provider retention and turnover rate
- Factors that influence retention and turnover rates
- Difficult to fill positions

 - # of licensed and unlicensed
 - How many we currently have
 - How many we need
- Data needed to produce Network Workforce Development Plan deliverable that includes:
 - Workforce **Capacity** Assessment, Development Goals, and Work Plans
 - Workforce **Capability/Competency** Assessment, Development Goals, and Work Plans

Purpose

- Strengthen our Workforce
- Meet contractual and ACOM 407 & 407 Attachment A requirements
- Single Provider assessment from one source (Nine separate assessments disseminated vs. one)
